OUR MISSION

Greater Noida World School was founded in the year 2013 with the aim and objective of giving quality education to create world leaders.

We envision our children to be the torch bearers of truth and knowledge in all the ten directions of the globe. The five virtues that make up a good human being – Truth, Integrity, Loyalty, Wisdom and Faith will shape these leaders of tomorrow, who will step out of the school portals with confidence to take on the world. They will help integrate India with the world.

Every learner will strive for excellence in his chosen field. To achieve this we are dedicated to the task of providing an ideal environment for the nurturing of young minds entrusted in our care. We must provide the best facilities to our teachers, who are the facilitators of this vision.

PRINCIPAL'S MESSAGE

We at GNWS, are focusing on the holistic development of every child under our care. The planning for the entire session is as per CBSE guidelines. The activities and competitions are organized to cater not only to the individual needs but also enables students to work in a team.

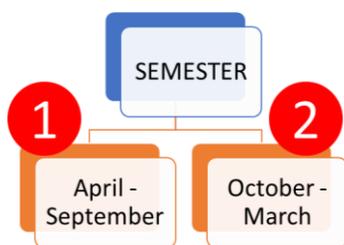

A slew of extracurricular activities like Karate, skating and other sports activities enables the students to prepare for the global platform. With dissolving boundaries as the world shrinks we have to prepare our children to be the leaders of tomorrow. They are the ambassadors of the futuristic world and we inspire them to hone their skills so as to don the mantle with aplomb.

My team of highly qualified and passionate teachers is always ready to assist every student to discover the best in him and help him go beyond his limits. The positive support of the school management and each and every parent facilitates the miracle of development and acquiring knowledge.

We amalgam the ethnic and the modern, both in values and technology to make the students rooted to their culture, yet soar in the limitless sky of wisdom and opportunity.

We at GNWS not only believe in teaching but we inspire them towards learning. As told by Albert Einstein, "It is the supreme art of the teacher to awaken joy in creative expression and knowledge".
